

# SolSwitch™-4000

## A State-of-the-Art IP PBX for Resellers and Carriers (CLECs and ILECs)

- Designed for service providers (CLECs and ILECs)
- Resell and host PBX voice services
- Various redundancy options
- Easy to use administrative web-portal
- SIP-ready

### Overview

The SolSwitch-4000 is capable of supporting the SolSwitch multi-tenant and carrier platform including CLECs and ILECs. Great for companies that wish to generate revenue using the SolSwitch to build their own infrastructure and become a service provider. SolSwitch owners can offer hosted PBX services to customers using their own appliance.

A next generation IP based phone system, the SolSwitch comes with a set of basic features with the option of upgrading to advanced features. This 2U rackmount appliance supports 4,000 users, has no extension or voicemail limit and is compatible with a large range of devices and services - giving you total control over the functioning of your phone system.

SIP-ready and fully compliant to the SIP standard, the SolSwitch-4000 has the ability to integrate with analog lines and/or devices. All SolSwitch models come with a 2-year warranty with the option to purchase a 5-year extended warranty.

Perfect for buildings looking to offer phone service to tenants and make some extra revenue.
